TRANSMITTER HUNT

It seems that the new hunters are holding their own as Cole, W5DKF, won the last hunt. From the time the first hunter appeared, 'till the last showed up, only 9 minutes elapsed. It was a close race in time and mileage. LVE hid off So. Prossa. Since Cole was first he will hide this Sunday, Aug 21, so be at south end Olmos Park at 1:30 to start the hunt. Let's all turn out for the picnic afterwards.

SPORT CAR RACES

At the last meeting a representative from the sports car club asked if mobiles of our club could furnish communications for their race next month, Sept 24-25. They think that the races will be held at the airbase in Uvalde. Any interested in participating, contact W5LVE.

CIVIL DEFENSE

Things are looking up on the civilian defense front. Think we will have a plan of what is needed and what the hams can do, at the club meeting. We need more volunteers for AREC and CD. According to plans, Mr. Bosch, communications director for Bexar County Civil Defense, should be on hand to give us more particulars.
